Acknowledgement is made of the response and election of group X and species of claim 3 filed in paper no. 15. Amendments are entered. Claims 1-4, 6-15, 34-38, 41-89, 91 and 92 are pending. No claim is allowed at this time.

MPEP 818 Election and Reply

Election is the designation of the particular one of two or more disclosed inventions that will be prosecuted in the application.

A reply should be made to each point raised by the examiner's action, and may include a traverse or compliance.

A traverse of a requirement to restrict is a statement of the reasons upon which the applicant relies for his or her conclusion that the requirement is in error.

To be complete, a reply to a requirement, which merely specifies the linking claims, need only include a proper election.

Where a rejection or objection is included with a restriction requirement, applicant, besides making a proper election must also distinctly and specifically point out the supposed errors in the examiner's rejection or objection. See 37 CFR 1.111.

Since group X belongs to hundreds of compounds with variety of substituents at 1, 2, 3, 4, 6, 16 and 17 positions of steroid ring, it is a burden on the Examiner to figure out the claimed invention. Applicant is requested to draw the structure of the compound with various claimed elected substituents and example no. of the compound of claim 3.

The information disclosure statement filed in paper no. 5 and 12 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.
